

THE NATIONAL REPTILE ZOO

CONSERVATION | EDUCATION | EXPLORATION

Please sanitise your hands before and during your visit.

Try not to touch too many surfaces as you wander around. All areas are regularly cleaned and disinfected.

Follow the one way system around the zoo.

Please try not to cut across the marked off zones. They are there to help control the flow of visitors and limit any potential spread of virus.

Keep 2m away from other visitors and our staff.

We know you like to ask our keepers lots of questions, but during these restrictions please give them space to keep them safe.

Allow other visitors time to move onto the next viewing area before moving on.

Be mindful of your time at the animal encounter area and in the nocturnal room, giving others a chance to see.

Do not pick up items from the shop unless you intend to purchase them.

Unfortunately, our café will also remain closed at this time.

Coronavirus
COVID-19

Help us to keep you, our staff, and our animals safe.
